**Re: Excise Tax Credit for Plug-In Electric and Fuel Cell Vehicles**

**Date: April 24, 2020**

As a reminder, the \$6 million funding authorized by the Maryland Clean Cars Act of 2019 (HB 1246) as an excise tax credit for both plug-in electric vehicles and fuel cell vehicles for Fiscal Year 2020 (July 1, 2019 – June 30, 2020) has been depleted.

We are currently holding and will continue to hold all applications received. If additional funding becomes available, applicants will be awarded the credit in the order of receipt. Currently, no funding has been authorized beyond the \$6 million for Fiscal Year 2020.

You must alert your customers to this information prior to the purchase of a plug-in electric vehicle or a fuel cell vehicle.

If you have additional questions, please contact the Maryland Department of Transportation Motor Vehicle Administration Refund Department at 410-768-7346.
